KID GLOVES can easily be cleaned by first putting the glove on the hand, then take a clean piece of flannel, some tepid water and a cake of Ivory Soap, wet the flannel slightly and rub it lightly on the soap, then rub the soiled parts of the glove with the soaped flannel. After the dirt is removed, rub all parts of the glove with a damp piece of clean flannel; remove the glove, stretch it lengthways and lay aside to dry. Ordinary soap contains too much alkali, which will turn the color of the kid.

A WORD OF WARNING.

There are many alike soaps sold, represented to be "just as good as the 'Ivory'" they ARE NOT, for the all-important, but the peculiar and inimitable qualities of the genuine. Ask for "Ivory" Soap and hold upon getting it.

FOR SALE!

ENTIRELY IMPROVED

Orange Plantation

IN THE FAMOUS
LAKE REGION
OF SOUTHERN
FLORIDA.

"DRAKE POINT PARK," one of the most desirable and attractively located Orange Plantations in the South, is now offered for sale by THE CLOSE AN ESTATE. It is situated in Lake County (formerly Sumpter) Florida, on the shores of the famous Lake Apopka, and comprises eight 160-acre of Hammock Land, some of which is in a high state of cultivation with Orange Groves of various ages in full and remunerative bearing. The owner has bestowed years of labor in the improvement of this magnificent property, and to increase its value has excluded from it not all but the choicest varieties of the orange family.

Owing to the altitude of the Park it is not subject to the blight of frost, and escaped with slight injury from the memorable one of January, 1886. This fact demonstrates its desirability for the cultivation of vegetables for the Northern Markets, which industry readily yields from $300 to $1,000 per acre annually.

The improvements are first-class in every particular, and the surroundings picturesque in the extreme. Lake Harris, or Apopka, sixteen miles in length, with an average width of four miles, forms the base of the elevated plateau upon which stands the residence, on the north and east, and party on the west.

It is conveniently interspersed with inhabited islands, and obviously in the finest variety of fish, while numerous steamers, yachts, and sailing craft plow its waters. Railroads border it on three sides, and its lovely shores present here and there towns, villages, and cities.

The limited space of an advertisement forbids an extensive description of this magnificent property, which must be inspected to insure proper appreciation.

Those desiring to purchase will find it easy of access, and will be afforded every facility for investigation.
